

## Application to join a Program for New Immigrant Physicians to Settle and Work in the Galilee Healthcare System

During the years 2010 – 2012, and again between 2014 – 2015 the Ministry of Immigrant Absorption and the Ministry for the Development of the Negev and the Galilee joined forces in operating programs to encourage aliya, in which a special “basket” of incentives was given to immigrants who moved to one of the settlements in the Negev and the Galilee. Those programs were extremely successful, and in each of the years in which the program was operated, hundreds of immigrant families settled throughout the Negev and the Galilee.

The Ministry for the Development of the Negev and the Galilee, and the Galilee Development Authority have decided to build another program to encourage immigrant physicians to join the health system in the Galilee, and to settle in the Galilee. The objective is to narrow the existing gaps in the health service, between the Galilee and the center of Israel, and to increase the number of physicians that live and work in the Galilee healthcare institutions.

## B. Introduction

The Ministry for the Development of the Negev and the Galilee, and the Galilee Development Authority have set themselves the target of encouraging new immigrant physicians to join the healthcare system in the Galilee, and to build their homes in the Galilee. The development boom in the Galilee depends on the encouragement of settling in the Galilee's settlements. The high cost of housing in the center of the country has created a reality in which many residents are looking for less expensive housing options, but without foregoing quality. At the same time, the health system in the Galilee is looking to recruit quality manpower. The procedure presented below constitutes one of the instruments used by the Ministry and the Authority with the objective of encouraging settlement in the settlements of the Galilee, and simultaneously attracting quality medical manpower to the Galilee's healthcare system.

## C. General

Those entitled to the benefits in the procedure, will enjoy monthly participation in the payment of rent for a period of up to 18 (eighteen) months, and a further "basket" of benefits for a period of up to 18 (eighteen) months (except for the participation in car rental which is limited to 4 (four) months. The benefits will be given to those entitled, every six months, or any period of time that will be determined by the Galilee development Authority. (Henceforth – "those entitled").

The participation will be for a period of up to 18 (eighteen) months, from the date of acceptance to the program.

## **H. Participation in culture, sport and leisure activities, and/or car rental, and/or participation in professional activities**

The aim of assisting an immigrant physician in culture and leisure activity, is to ease his integration into the local community, to expose him to the wide variety of life on offer in the

Galilee, to promote cooperation in leisure hours, and to support and encourage culture, leisure and sports institutions in the Galilee.

The participation in culture, leisure and sports activity will be granted for the purchase of **subscriptions only**, for the activities and institutions specified in the definitions of this procedure.

**It is emphasized that the culture and leisure institutions and activity must be located in the Galilee, and this condition constitutes a prerequisite for the Authority's participation in this activity.**

**It is further emphasized that the Authority will not recognize the expense of purchasing individual tickets, but only subscriptions.**

Participation in culture, sport and leisure activities will be for a period of up to 18 (eighteen) months, from the date of acceptance to the program.

Furthermore, the Authority recognizes the difficulty that new immigrants find in moving around the area in which they live, in order to complete the bureaucratic processes determined by law, in order to realize all their rights, and to find appropriate employment. Therefore, the Authority has decided to recognize the participation in the immigrant physician's car rental, as a way of assisting him in his speedy integration into the community, and his completion of the processes involved in being a new immigrant.

This participation will be subject to the immigrant physician undertaking that he car will rent the car for the exclusive purpose of aiding the absorption of himself and his nuclear family.

The recognition of this activity will be for a period of up to four months (120 days) from the date of acceptance to the program.

Moreover, the authority is keen to assist the immigrant physician's professional integration in the Galilee's healthcare system, and so attached great value to the ongoing development of his career, even after his aliyah. Therefore, the Authority has decided to recognize, and participate in, the expenses of the immigrant physician's professional activity, as activity which will help him integrate into his new place of work.

The recognition of this activity will be for a period of up to 18 (eighteen) months, from the date of acceptance to the program.

**It is emphasized that a scholarship for the purpose of acquiring higher education is not included in this item, because the new immigrants are entitled to such a scholarship from the Ministry of Immigrant Absorption.**

The recognition of this activity will be for a period of up to 18 (eighteen) months, from the date of acceptance to the program.

#### **J. Receiving a grant**

The objective of this assistance is to give the immigrant physician a perseverance award, after a considerable period of time from his aliyah, his settling in one of the settlements in the Galilee, and his employment in the Galilee healthcare system. The grant can be used however he wishes, without being restricted to any particular topic or activity.

The grant will be awarded after 18 (eighteen) months, from the date of acceptance to the program.

The entitlement of those enrolled will be examined under the directives of this procedure.

**It is emphasized that the enrolment of the immigrants with the aliyah organizations, and the passing on of the lists to the Authority, does not constitute confirmation of acceptance to the program.
